Noah Williams
SYNTHETIC SAMPLE - fictional candidate, not a real person
Machine Learning Engineer

Summary

ML engineer who trains models and serves them behind small Python APIs.
This biography is invented for a portfolio demo.

Experience

ML Engineer, Kindling ML (fictional), 2020-2026
- Trained ranking models with Python and PyTorch.
- Served features through a FastAPI service.
- Built offline evaluation notebooks for product science.
- Stored experiment rows in PostgreSQL.

Research Assistant, Redwood State University (fictional), 2018-2020
- Reproduced papers and cleaned public datasets.

Skills

Python, PyTorch, FastAPI, PostgreSQL, pandas, experiment tracking

Education

M.S. Computer Science, Redwood State University (fictional), 2020
